

Together we can change lives

Goodwill of Orange County's assistive technology program gives a voice to a boy who cannot speak, or hands to a young woman who has lost her ability to type.

Our staff of speech pathologists and rehabilitation engineers evaluate individuals, develop strategies, and provide equipment that enables and empowers our participants at home, school, and work.

OUR SERVICES INCLUDE:

- Assessment
- Training
- Consultation
- Technical Set-up and Support
- Equipment Loan and Reuse
- Professional Development

OUR EQUIPMENT LIBRARY INCLUDES:

- Augmentative Alternative Communication (AAC) devices and systems
- Alternative Computer Access (alternative mice, keyboards, switches, eye gaze, etc.)
- Software for word prediction, speech recognition, screen magnification, and screen reading
- iDevices with apps for assistive technology & communication
- Talking word processors
