

Creating an Inclusive Environment for Your Financial Education Program

The following checklist will help your organization remove barriers to participation by individuals with disabilities and create an inclusive environment. Creating an inclusive environment starts with the actions and attitudes of staff that set high expectations about a barrier free environment that encourages everyone to be sensitive and solution oriented to individual differences.

Technical Assistance Resources

The National Institute on Disability and Rehabilitation Research (NIDRR) has established ten regional centers to provide information, training, and technical assistance to employers, people with disabilities, and other entities with responsibilities under the Americans with Disabilities Act (ADA). The centers act as a "one-stop" central, comprehensive resource on ADA issues in employment, public services, public accommodations, and communications. Each center works closely with local business, disability, governmental, rehabilitation, and other professional networks to provide ADA information and assistance. Programs vary in each region, but all centers provide the following:

- Technical Assistance
- Education and Training
- Materials Dissemination
- Information and Referral
- Public Awareness
- Local Capacity Building

Call the toll-free number: (800) 949-4232 (V/TTY) for information, materials, technical assistance, or training on the ADA. This number will automatically route your call to the Center in your region. The contact information for the ten Regional ADA Centers is listed below:
