Padlet is an online virtual “bulletin” board, where students and teachers can collaborate, reflect, share links and pictures, in a secure location. Padlet allows users to create a hidden wall with a custom URL. Padlet creators can also moderate posts, remove posts, and manage their board 24/7. Padlet will upgrade the way you work with user management, extra privacy, gorgeous themes and more. Make beautiful boards, documents, and webpages that are easy to read and fun to contribute to. Your instance of Padlet will be on its own domain, just for your school. School is basically a simpler way of saying - an educational institute. This includes kindergartens, elementary schools, middle schools, high

schools, vocational schools, college prep schools, Sunday schools. It is completely separate from the vanilla padlet.com and can, therefore, be managed by your school/district IT independently. Your IT department can even block access to the more open padlet.com while allowing your controlled Padlet Backpack instance. Win-win for both teachers and IT. There are monthly and annual Teacher Plans and school plans, all include student accounts. Businesses should use Padlet Briefcase - the same product, but for businesses.
