Ready for What's Now.

Built for What's Next.

The story of Career Education in Orange County is the story of our region's past, present and future.

Our economy has always relied on well-trained professionals, and with the high-tech workforce evolving, the higher education opportunities offered by Orange County's community colleges **are more critical than ever!**

Future Built Opportunities...

Currently, Orange County's economy employs an estimated **483,970 professionals** requiring the type of Career Education provided by our local community colleges. Each year, more than **17,000 positions** requiring associate degrees, certificates, and workforce development training are projected to become available in the region.

Future Built Salaries...

Five years later, Career Education grads earn MORE!

General Associate Degree –
\$38,500 annual average salary

Career Education Associate Degree –
\$66,000 annual average salary

Built for Our Community.

Built for Orange County.

For Orange County's versatile and fast-growing industries, the future is already here! With an in-demand Career Education from an Orange County community college, local professionals are building future-proof careers on a foundation of up-to-date knowledge and skills.

Don't Just See the Future... Be the Future!

- By 2020, **65% of jobs** will require education beyond a high school diploma. That's up from 56% in 1992, and 28% in the 1970s!
- In Orange County, demand for these types of careers is projected to grow by approximately **17,678 jobs annually**, over the next decade.
- Looking ahead through 2024, Orange County's fastest growing occupations will include a **Career Education-heavy mix of IT, Construction, Professional & Business Services, and Health occupations.**

Advanced Manufacturing

An Industry with a Future.

The Advanced Manufacturing sector combines cutting-edge technology with state-of-the-art processes in order to meet the ever-changing production requirements of California's major industries. Each community college in Orange County has revolutionized its learning programs to meet the increasing needs of this technology-based sector.

Advanced Manufacturing is a "horizontal" sector, meaning it has a broad impact on virtually every industry sector. New advances in machining and 3-D printing technology make for a future-proof mix of hands-on and high-tech training.

A key driver of the Orange County economy, employment opportunities in Advanced Manufacturing are projected to continue to expand with workforce demand. As this sector continues to evolve and adopt new technologies, the demand for workers who possess these advanced, high-tech skills will continue to grow.

Future Built Careers

Make great products... and a great living!
Advanced Manufacturing professionals are in demand.

3-D Printing | Machining | Chemical | Food | Biotech | Aerospace | Dental Equipment | Petroleum | Furniture | Household Products | Plastic Products | Paper Products | Metals | Transportation | Building Materials | Printing | Computers

Future Built Skills

Get the critical knowledge and tools to succeed in an Advanced Manufacturing career.

Critical Thinking | Leadership | Math | Problem Solving | Teamwork | Ability to Learn | Technical Ability | Mechanical Understanding | Listening | Communication | Situational Awareness | Computer Proficiency

Future Built Fact

Due to retirements and other replacement needs, California will need to fill 96,500 positions in Advanced Manufacturing by 2020.

Future Built Paychecks

Your Career Education in Advanced Manufacturing opens doors to bigger opportunities, higher salaries, and more!

- **3-D Artist/Modelers:** \$50,000 - \$55,000
- **Additive Manufacturing Techs:** \$27,000 - \$56,000
- **Computer-Controlled Machine Tool Operators:** \$31,860 - \$48,910
- **Computer Hardware Engineers:** \$87,910 - \$147,020
- **Cutting, Punching & Press Machine Setters & Operators:** \$26,710 - \$40,640
- **First-Line Supervisors:** \$44,910 - \$76,370
- **Industrial Engineers:** \$68,550 - \$106,970
- **Industrial Production Managers:** \$60,030 - \$193,450
- **Machinists:** \$33,410 - \$53,540
- **Manufacturing Production Technicians:** \$46,810 - \$79,290
- **Purchasing Agents:** \$47,070 - \$81,830
- **Team Assemblers:** \$21,780 - \$48,340
- **Welders, Cutters, Solderers, Brazers:** \$26,750 - \$69,780

From 2012-2017, the Manufacturing sector employed more people in Orange County than any other sector (more than 250,000).

In a survey of Orange County Career Education students in manufacturing careers, 85% reported a wage increase, while 92% reported being "satisfied" or "very satisfied" with their education.

Advanced Transportation

& Logistics

Building the Skills that Move Orange County.

The future of the Advanced Transportation and Logistics sector lies at the intersection of land, sea, and air vehicles with technology and fuel sources. As populations continue to rise and vehicle technologies continue to advance, the repair and maintenance of these vehicles will remain critically important. A Career Education in this field provides students with transferable skills that are likely to be in demand throughout California, well into the future. Desired skills mentioned in job postings within this sector include auto repair, customer service, vehicle inspection, and product sales. Due to the complexity of today's transportation technology, those who can work with computerized shop equipment and electronic components are likely to find the most job opportunities.

Future Built Careers

With a Career Education in Advanced Transportation and Logistics, you'll be on the move to a higher salary and a more secure future!

Vehicle & Parts Manufacturing | Vehicle, Parts & Supplies Wholesalers | Freight Transportation, Delivery & Parts Operations | Car Dealers & Auto Retailing | Transportation Support Activities & Logistics Services | Bus and Rail Transportation & Transit Systems | Auto Repair & Maintenance | Commercial Pilot

Future Built Skills

Get the critical knowledge and tools to succeed in an Advanced Transportation and Logistics career.

Critical Thinking | Organization | Work Ethic | Math | Time Management | Problem Solving | Communication | Ability to Follow Directions | Technical Ability | Mechanical Understanding | Situational Awareness | Computer Proficiency

Future Built Fact

Within the Advanced Transportation (and Renewable Energy) Sector, **84% of Career Education program alums report an increase in wages.**

Career Education grads searching for a new job in this sector reported an **83% success rate within 6 months.**

In 2017, the Transportation sector added **4,192 jobs, a 19.4% increase** from the previous year and the second most of all industry clusters in Orange County.

Future Built Paychecks

Your Career Education in Advanced Transportation & Logistics opens doors to bigger opportunities, higher salaries, and more!

- **Aircraft Mechanics & Service Technicians:** \$48,680 - \$75,880
- **Alternative Fuel Specialists:** \$34,332 - \$91,231

Agriculture, Water & Environmental Technologies

New-School Innovation Meets Old-School Elbow Grease.

Many people think that “agriculture” just refers to farming and ranching, but modern agriculture and ag-related sciences touch almost every aspect of our lives. This is especially true in California where agriculture generated nearly \$46 billion dollars in annual sales from 2016-17, making California the largest producer of cash crops in the country.

Looking forward, the development and use of “green technologies” will continue to drive industry innovation and growth, as public and private interests become increasingly committed to the development of more environmentally sound food production methods.

Future Built Careers

Agriculture, Water and Environmental Technologies sector grads are doing amazing things in these high-demand fields and more!

Agriculture, Water & Environmental Services | Wholesale Trade | Agriculture Support & Production

Future Built Skills

Get the critical knowledge and tools to succeed in an Agriculture, Water and Environmental Technologies career.

Interpersonal | Leadership Work Ethic | Ability to Learn New Things | Critical Thinking | Communication | Problem Solving | Scientific Understanding | Technical | Mechanical | Environmental Awareness

Future Built Fact

Flowers are Orange County's number one cash crop, accounting for **48% of total crop exports**.

Future Built Paychecks

Your Career Education in Agriculture, Water & Environmental Technologies opens doors to bigger opportunities, higher salaries, and more!

- **Farmers, Ranchers & Other Agricultural Managers:** \$48,620 - \$99,200
- **Fish & Game Wardens:** \$46,230 - \$69,060

Education & Childcare Services

Putting the “Care” in “Career.”

According to the U.S. Department of Labor, enrollment across all school grades is projected to grow at a rate of 9% between 2016-2026. In addition, a growing emphasis on improving education and making it available to more Americans will increase the demand for qualified educators at all levels.

Professionals looking for jobs that make a positive impact in the lives of children and adults will find many fulfilling careers in this sector. Graduates often become preschool teachers, child development specialists, primary classroom aides, infant and toddler caregivers, and children’s center directors or administrators. Careers as elementary and postsecondary teachers are also common, though they require additional education. While competition for jobs can be considerable, the need for good teachers in less affluent communities is always high.

Future Built Careers

It's not just a career... it's a calling. These are just a few of the bold careers in which Education and Childcare Services grads are building bright futures.

Preschool Teacher | Teacher Assistant | Special Education Aide | Parent Educator | Child Life Specialist | Social Worker | Sign Language Interpreter

Future Built Skills

Get the critical knowledge and tools to succeed in an Education and Childcare Services career.

Critical Thinking | Problem Solving | Reading Comprehension | Time Management | Cultural Sensitivity | Communication | Multitasking

Future Built Fact

From 2012-2022, the demand for elementary and middle school teachers in Orange County is projected to grow at a rate of **13%, nearly double the average** for all jobs.

Future Built Paychecks

Your Career Education in Education & Childcare Services opens doors to bigger opportunities, higher salaries, and more!

- **Adult Basic & Remedial Education Teachers:** \$41,150 - \$69,170
- **Childcare Workers:** \$19,180 - \$26,610

Global Trade

International. Independent. In Demand.

California is a global trade and logistics giant with 2017 exports accounting for more than \$171.9 billion in American-made goods to 229 foreign markets. In California, this sector is supported by 4.9 million jobs in such fields as logistics, finance, marketing, and management.

Orange County's close proximity to the Port of Long Beach and the Port of Los Angeles—which account for \$78 million, or one-half of all exports from the United States—further reinforces the region's strategic importance within California's global trade industry.

Health

Command More Demand in a Future-Proof Field.

Since 2009, the Health sector in Orange County has added more jobs than any other industry, expanding from the county's fifth largest industry to its second. It's no surprise that 25% of the fastest-growing jobs in Orange County are in health-related fields. Continued growth, increasing demand and a projected shortage of skilled workers means that Career Education grads with these skills will continue to see increased demand for the foreseeable future. Average wages in this sector stand much higher than other industries, paying about \$46 per hour.

Future Built Careers

Information & Communications

Technologies (ICT)/Digital Media

High-Tech Skills. High-End Salaries.

Information Technology is a key driver of the Orange County economy, with ICT professionals supporting virtually every business and industry in the region. Still, IT firms in the area report a lack of qualified individuals who possess the skill set and business acumen needed to be successful in this rapidly evolving industry. Employers in all industries have a tremendous need for workers with knowledge of the latest computer-related software, hardware, networking, and telecommunications skills. This massive demand means that entry-level hourly wages for IT jobs are significantly higher than the “MIT Living Wage” estimate for Orange County and provide ample opportunities for career growth.

Future Built Careers

Orange County Career Education grads are doing great things in ICT-related fields like these!

Entertainment, Television & Film Production | Animation | Graphic Design | Custom Computer Programming Services | Web Design | Wireless Telecommunications | Data Processing, Hosting & Related Services | Electronic Computer Manufacturing | Computer & Peripheral Equipment | Computer System Design Services | Wired Telecommunications

Future Built Skills

Get the critical knowledge and tools to succeed in an ICT or Digital Media career.

Communication | Critical Thinking | Math & Science | Computer | Technical | Problem Solving | Time Management | Teamwork | Ability to Learn | Interpersonal | Listening | Cultural Awareness

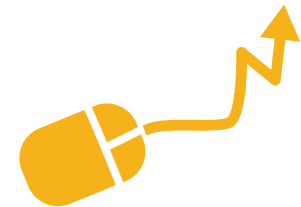

Future Built Fact

39% of California's job openings by 2022 will be ICT-related, including computer systems analysts, software developers, systems software experts, market research analysts, web developers, and information security analysts.

Future Built Paychecks

- Your Career Education in Information & Communications Technologies (ICT)/Digital Media opens doors to bigger opportunities, higher salaries, and more!
- **Computer Hardware Engineers:** \$87,910 - \$147,020
- **Computer Operators:** \$33,760 - \$57,030

Life Sciences/Biotech

The Science of Career Success.

According to a report by Jones, Lang, LaSalle (JLL), the Los Angeles/Orange County metro area ranks 6th on a list of the top life science hubs in the nation. According to the same report, nearly 3,000 biotech establishments employ 118,643 workers in the region. These professionals are employed in positions that specialize in the development, manufacture, and distribution of everything from agriculture feedstock and chemicals, to pharmaceuticals and medical devices and equipment.

Life Sciences and Biotech jobs projected to command high demand in the coming years will require various levels of education and skill. However, the majority of the top 10 occupations in this sector require either moderate-term, on-the-job training or an associate degree, making this sector a great choice for students looking for an accessible and well-paying job with career growth opportunities.

Future Built Careers

Do you have a mind for science, and a passion for technology. Consider a high-tech, high-paying career in these fields and more!

Research, Testing & Medical Laboratories | Medical Devices & Equipment | Bioscience-Related Distribution | Drugs & Pharmaceuticals | Agricultural Feedstock & Chemicals

Public Safety & Services

Rising Up to Serve and Support Our Communities.

Public safety careers typically involve making sure people are free to lead safe and secure lives. Whether you want to fight crime on the streets or fight injustice in the courtroom, there are many great careers to be had in this sector for people who want to make a difference in their communities.

Jobs in this sector generally fall into the areas of public safety, community services, emergency response, and legal practices. Many are government jobs, which are highly prized because of their benefits—because of this, these fields can be very competitive. Instructional programs provide students with the theoretical understanding and technical skills required for them to be successful in their chosen fields.

Students who have an understanding of diverse communities and an interest in helping people of all socio-economic backgrounds will find the careers in this sector especially fulfilling because of the way they directly impact people's lives.

Retail/Hospitality/Tourism

Building a Career in One of O.C.'s Biggest Industries.

The Los Angeles/Orange County region's Retail/Hospitality/Tourism sector is the largest in the state, accounting for one-third of the region's businesses and jobs. It is no surprise that this sector employs more people and provides more jobs than any other sector in Orange County. To serve this critical need, our regional community colleges offer workforce-ready certificates, credentials, and associate degrees in a variety of related industries, including retail management, fashion design and merchandising, culinary arts, nutrition, restaurant and food services, travel services and tourism, hospitality, and resort operations and management. This industry is unique for two reasons. First, entry-level occupations are known to develop valuable "soft skills," such as customer service, which are desirable to employers in all industries. Second, firms within this sector often hire and promote from within, meaning entry-level jobs provide stepping-stones to higher paying occupations within the sector.

Future Built Careers

Orange County offers countless opportunities in the high-energy Retail/Hospitality/Tourism industry.

Food Service & Drinking Establishments | Accommodation | Activities/Amusement | Transportation | Fashion Design | Fashion Merchandising | Sales & Marketing | Travel & Tourism Services

Future Built Skills

Get the critical knowledge and tools to succeed in a Retail/Hospitality/Tourism career.

Critical Thinking | Cultural Sensitivity | Situational Awareness | Teamwork | Creativity | Problem Solving | Communication | Customer Service | Work Ethic | Listening

Future Built Fact

Tourism-related jobs employ **more people in Orange County** than any other sector.

Future Built Paychecks

Your Career Education in Retail/Hospitality/Tourism opens doors to bigger opportunities, higher salaries, and more!
