- To search documents within a page, use your browser "find" function by typing Control F (Windows) or Command F (Mac).

The TPI Transition Initiative Steering Committee has spent nearly 2 years developing this website. The purpose is to provide transition planning & employment related information & resources to stakeholders including: Individuals with Disabilities, Families, Service Providers, Educators and Business Partners. This is an ongoing effort to ensure that stakeholders have access to up-to-date and quality articles, training information, tools, documents and resource contacts. This website will be updated on a monthly basis and as new information is acquired.

To promote and support successful transition to employment, independent living and quality life for individuals with disabilities, including those with significant disabilities, website users are encouraged to explore all TPI Transition Initiative Website sections and topics.

To submit photos to the Transition CA site, please complete this photo consent form and email both to our office.
