

## Apprenticeship Intermediary Webinar

This year celebrates the 85th anniversary of the passing of the National Apprenticeship Act of 1937 which established the Registered Apprenticeship Program. To celebrate National Apprenticeship Week, the Center for Advancing Policy on Employment for Youth is hosting a webinar with apprenticeship intermediaries on the evolution of apprenticeship, in general and for people with disabilities. This webinar will provide a brief overview of inclusive apprenticeships, feature speakers from apprenticeship intermediaries and highlight best practices to ensure apprenticeships are inclusive of youth & young adults with disabilities. An apprenticeship intermediary is an organization with the capacity, expertise, and network to help businesses successfully create, launch, and expand apprenticeship programs. Register today!

The webinar takes place Tuesday, Nov 15, at 4:00 PM ET.
