Related Resources

The following free career exploration and planning resources were developed using public funds and can easily be used in conjunction with California Career Resource Network tools.

The [CalJOBSSM](#) system is California's online resource to help job seekers and employers navigate the state's workforce services. The enhanced system allows users to easily search for jobs, build résumés, access career resources, find qualified candidates for employment, and gather information on education and training programs.

CaliforniaColleges.edu provides information about higher education in California for students, counselors, and parents. Students can explore the full range of accredited public and non-profit colleges and universities in California and nationwide.

[California Employment Development Department Labor Market Information for Job Seekers and Students](#) Web page provides job search tools and resume tips, information about jobs that are in, or will be in, high demand. It also enables users to explore local jobs with the Occupation Profile tool.

[CareerOneStop Get My Future](#) provides information, tools, and links to resources to help anyone age 16 to 24. Users can explore careers, learn about and locate training or education programs, and conduct a successful job search. The goal of this site is to help young adults overcome barriers and plan and achieve a path to career success.

[Making My Future Work](#) is a curriculum manual that contains 80 lessons across four modules focusing on themes of self-exploration, career exploration, 21st-century skills and entry into college. The lessons were initially designed for the high school grades but are being adapted for mentoring among middle school youth, educational activities among incarcerated youth, college access programs, class electives in middle school, mobile platforms, and activities for youth in after-school programs.

[New World of Work: High School Video Lessons](#) is a project of the California Community Colleges. They created a "Top 10" list of 21st Century Skills and then developed a video series providing an overview of each of the skills. The videos are geared to high school students.

[Staying Safe at Work: A Curriculum for Teaching Workers with Intellectual and Developmental Disabilities about Health and Safety on the Job](#) is a six-lesson training program designed to teach basic occupational safety and health knowledge and skills to young and older workers, and students with disabilities.

[U. S. Department of Labor Career One Stop Toolkit](#) provides employment information and inspiration for job seekers, students, businesses, and career professionals.

[Youth@Work: Talking Safety Curriculum for California](#) is a free curriculum that teaches basic safety skills through the use of highly participatory activities such as games, small group hands-on activities, and role plays. It also includes adapted activities for teaching youth with cognitive or learning disabilities.
