

Pharmacy Technician Apprenticeship

Looking for not just a job, but a career? Take a closer look at becoming a

Pharmacy Technician

If you are a Californian resident with a disability looking to get into the workforce, now is the time to start a rewarding career as an apprentice Pharmacy Technician!

The Ready, Willing and Able initiative is currently recruiting for high-quality positions as apprentice Pharmacy Technicians throughout Orange County.

Pharmacy Technicians prepare medications under the direction of a pharmacist. May measure, mix, count out, label, and record amounts and dosages of medications according to prescription orders.

Through combining paid employment with on-the-job training and formal technical instruction, as an apprentice Pharmacy Technician, you will:

- Earn while you learn – receive a competitive wage from day one
- Develop practical skills and build workplace experience
- Study a nationally recognized qualification and receive college credit for potential further study

Apprentice Pharmacy Technician positions typically have a six-to-twelve month duration, consisting of:

- Up-front, comprehensive practical orientation
- Paid on-the-job training in a Pharmacy
- Technical instruction at a local training college
- Self-paced online training modules: develop your skills at a time and place of your choosing
- On-the-job training and workplace mentoring

Did you know that upon qualification Pharmacy Technicians enjoy an average starting salary of \$46,958?*

Pharmacy Technician

What You Need to Know

A Pharmacy Technician collects, inputs, and verifies prescriptions, refills, and patient information. Pharmacy Technicians assist a registered pharmacist with support activities and processes required to dispense medical prescriptions. A Pharmacy Technician may prepare labels and routine prepacked orders.

In addition, Certified Pharmacy Technician may be expected to perform some clerical duties, reporting to a supervisor or manager.

On the job, you will:

- Receive written prescription or refill requests and verify that information is complete and accurate.
- Enter prescription information into computer databases.
- Establish or maintain patient profiles, including lists of medications taken by individual patients.
